

Avid S4 and S6 Compatibility

Information

ALERT: RESOLVED in 2020.11.1 - MTM 2020.11 Installer Bug

The 2020.11 Master Module Installer fails to properly install, resulting in a version mismatch error. Run the 2020.11.1 installer or see the Article below for more details and workarounds

[⚠ 20.11 Master Module Installation ⚠](#)

S4 and S6 Compatibility

Hardware Compatibility

Avid S4 System

The S4 system requires S6 v2019.9 (or higher) software.

Master Joystick Module

The Joystick Module requires S6 v2.1 (or higher) software.

Master Post Module

The Post Module requires S6 v2.2 (or higher) software.

Ethernet Routers

If you prefer to use a third-party DHCP device to provide IP addresses to the modules, Avid recommends these routers:

- [Cisco RV345 Dual WAN Gigabit VPN Router](#)
- [Cisco RV325 Dual Gigabit WAN VPN Router](#)
- [Linksys E3200 High Performance Dual-Band N Router](#)
- [Linksys EA6500 Dual-Band Smart Wi-Fi Wireless Router](#)

Question *Other routers have not reliably met the timing requirements of the S6 modules.*

Software Compatibility

Avid S4/S6 software versions 2019.12 / 2019.12.1 / 2020.1 / 2020.5 / 2020.6 / 20.6.1 / 20.11 / 20.11.1 are compatible with the following (or higher version) applications:

- Pro Tools 2019.10 or higher
- Steinberg Nuendo 7
- Steinberg Cubase 8
- Apple Logic 10
- Magix Sequoia 14
- Merging Pyramix 8.x Native only
- Merging Pyramix 9.x
- Avid Studio Monitor Pro
- Avid XMON S6
- Pro Tools | MTRX
- Pro Tools | MTRX Studio
- ProMon (DADman) for Pro Tools | MTRX and NTP Technology AX32

Workstation Compatibility:

- macOS High Sierra 10.13.6, macOS Mojave 10.14.6, macOS Catalina 10.15.6
- Windows 10

Important!

The EUCON performance improvements included in S6 v3.5 makes v3.5 and later versions incompatible with all previous versions of EUCON and EuControl. As a result, version 3.5 and future versions must not be run on the same network (subnet) as any previous EUCON Surface software. All devices on the network must be running the same version of EUCON/EuControl. Please uninstall or remove from the same network all previous S6, System 5 Hybrid, S5-MC/MCPro, Avid Dock, Avid S3, and Artist Series software. Be sure to update other EUCON software to v3.5 or higher before using EuControl v3.5 or higher.

Compatibility Information for S6 WSCControl v2.x and EuControl Co-Installation (EUCON-3745):

S6 software v2.0 added the ability to automatically save and load S6 layouts to/from sessions running on a designated workstation. If you use both S6 and S3/Artist series controllers on the same workstation, update EuControl software to v3.3.0 or higher to prevent S6 layouts from being overwritten by S3 or Artist layouts. You can download the latest EuControl software from your Avid Account (www.avid.com/account).
